

Over 30 years the same good tea.  
Now packed in Aluminum.

**TEA** "is good tea"  
RED ROSE ORANGE PEKOE is extra good.

## Western Canada Points the Way

One of the most notable gatherings of the year, and one in which all the people of Western Canada were particularly and directly interested was the International co-operative wheat pool conference held at Kansas City, and at which representatives were present from the United States, Australia, Germany, Russia, as well as from the three great wheat producing provinces of Canada.

Western Canada was really the outstanding and dominant factor at the conference. And richly so because in three short years the farmers of the Prairie Provinces have organized and developed the greatest grain handling co-operation in the known world. Their success has been phenomenal eclipsing anything of the character ever attempted in connection with its commodity. They can speak from actual experience in definite achievement.

It is not surprising, therefore, that at the Kansas City conference the reports presented on behalf of the Alberta, Saskatchewan and Manitoba Pools, and their common central selling pool, were received with great enthusiasm, and that the three western and sanguine delegates by the Canadians commanded respect and gave strength to the deliberations of the conference.

Many of our own people have now grasped the full magnitude of the operations of the wheat pool, and realize that how much has been accomplished in the brief period of approximately 1000 days. Three years ago there was no Canadian Pool. Today, to quote J. A. McNeil, president of the Saskatchewan pool, and the Canadian Selling pool, there is a membership of 125,000 in the three provinces. In 1923-24 the Canadian pool handled 187,000,000 bushels of wheat belonging to its farmer members and 27,000,000 bushels of coarse grains. The pool has representatives in all the wheat importing countries and ships direct to sixty European ports. It owns and controls approximately 650 country elevators in the three provinces with a combined storage capacity of approximately 27,000,000 bushels. At the head of the lakes the pool has six terminal elevators with a storage capacity around 1,000,000 bushels and also a 5,000-ton transfer barge at Buffalo. The pool is also operating terminal elevators at Prince Rupert and Vancouver, while plans are under way for large extensions to the country elevator system and port facilities. Since the pool began its operation it has paid its farmer members around half a billion dollars.

These are truly remarkable achievements, but they do not tell the whole story. The pool has practically revolutionized the financing method of our Western farms. Instead of the farmer getting all his money in one bulk sum every fall, at which time every creditor made immediate demand upon him, with the result that he was practically forced to sell his wheat at the then prevailing price, and by all following the same course selling the market, he now receives a first payment and several successive payments spread over the year. The result is not only orderly marketing of the wheat but orderly financing on the part of the farmer. It is to an ever increasing extent, conducting his business on cash rather than a credit basis. The system has been of wonderful assistance to the weaker, less business like farmers.

Equally important has been the effect the pool has had in restoring confidence to the farmer and to business interests generally throughout the west. It has given the farmer a sense of independence and security hitherto lacking. It has emphasized the value of co-operation, and the strength that is to be found in organized co-operative effort as contrasted with each man striving to work out his own problems and his own economic salvation.

The farmers at Western Canada have demonstrated the wisdom of having one great selling agency instead of one or two hundred thousand farmers each selling individually and in competition with each other. The object of the Kansas City conference was to try and devise ways and means whereby the great wheat producing countries of the world could co-operate instead of competing against each other. The most cordial response was accorded the idea, and efforts will be made to devise a workable plan.

**Must Be Healthy Place**  
Tasmania claims to be the healthiest spot in the British Empire. Whether this is so or not, it is certain that a young officer of a British shipping company was sent there by his doctors who told him he had not a year to live. He went to Tasmania, the company granting him a pension in the belief that it would be drawn for a brief period. He drew that pension for eighty-three years, dying in Tasmania aged 100, on the day of 104.

**After seeing a 50-year term in the county jail**—a Los Angeles man found that he had been sentenced to the city jail and had to serve the sentence again in the proper place of confinement.

## Children Cry for

**FLATIN CASTORIA**

**MOTHER—** Fletcher's Castoria is especially prepared to relieve infants in arms and children all ages of Constipation, Flatulency, Wind, Colic and Diarrhea; Allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of **Dr. J. C. Williams**. **Absolutely Harmless—No Opium.** Physicians everywhere recommend it.

## Huge Dairy Farm

Largest Herd of Dairy Cattle in North America to be Established Near Winnipeg.

There is now a herd of one thousand head of Holstein dairy cattle on the Manitoba dairy farms at Moorhead, on the Canadian National Railways southeast of Winnipeg. It is the intention of the company, which is counting on a 5,000-acre tract of land with dairy farms to increase this herd to 5,000 head, which will make it the largest herd of dairy animals under one ownership in North America.

## Joint Stiffness Goes, Swellings Disappear, Pain Is Subdued

No Liment Gives Such Universal Satisfaction As

## NERVINE

It is the great penetrating power of this liniment to penetrate to the very core of the pain, penetrate quickly through the tissues and bring water, comfort and relief. No liniment compares in pain relieving power with Nervine. For the minor aches and pains that are so common in every family, Nervine should be kept handy. It is the best for Rheumatism, Lumbago, Neuralgia, and colds. 25 cents at all dealers.

## For Improved Highways

Huge Sums Spent, Last Year for

During the year 1925 a total of \$4,563,000 was spent on construction and maintenance of all public highways in Canada according to computation made by A. W. Campbell, Dominion Highways Commissioner. Of this total, \$2,555,000 was spent on construction and \$1,958,000 on maintenance of highways already constructed. The total mileage of roads in this aggregate expenditure was 46,321.

## THIS GREAT CONCERN

RENEWES STRENGTH

Simply Because it Enriches and Builds Up the Blood.

In no trouble is decay of intellect which means poverty of the blood. It is very common in young girls and in persons who are overworked or confined within doors. It makes its appearance in the form of a headache or it is often well developed before the first menstruation. But taken in time there is a cure that is not such and restores the blood that good health and strength soon come to the former weak anemic sufferer. This book is Dr. Williams' Pink Pills, which for years have been the most successful blood-builder known, and are credited for restoring to good health thousands and thousands of persons who have been made weak by the many ailments that come through weak, watery blood.

The correction of anemic conditions by Dr. Williams' Pink Pills is so certain an achievement that as proof of this Miss Margaret A. Smith, Hargrove, Ont., says: "I suffered with a severe attack of jaundice I was laid in a very weak and run-down condition, and had no money but I'm interested in your proposition."

One of the most serious troubles faced the railroads by freight trains that are loaded with the bulky bulky packing around car axles. Trains use the material for building fires.

It is the easiest thing in the world to get a train to stop when you are in the right place.

## Children Cry for

**FLATIN CASTORIA**

**MOTHER—** Fletcher's Castoria is especially prepared to relieve infants in arms and children all ages of Constipation, Flatulency, Wind, Colic and Diarrhea; Allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of **Dr. J. C. Williams**. **Absolutely Harmless—No Opium.** Physicians everywhere recommend it.

## THE MAIL, BASSANO, ALTA.

**SOAP**  
Famed for its  
fragrant creamy  
lather  
Best for you and baby too.

## Canada's National Wealth

Industrial Wealth Placed at an Average of \$2525 Per Head  
Canada's national wealth is officially estimated at twenty-two billion dollars, which works out on the average at \$2525 per head. This is a very undervalued natural resource. There are no accurate figures available as to what the national wealth was at Confederation. But it is estimated at under one and one-half billions.

It is now, therefore, around 14 times what it was when Canada became a Dominion. Agricultural values make up about \$8,000,000,000 of the present total. The railways are valued at nearly six billions; the railways considerably over two billions. On the whole, the railways are the most valuable asset of the country. Saskatchewan leads in point of per capita wealth.

## Peking or Pekin

Former Spelling Is Closer to Chinese Version Than Latter

A new war has been declared here but this time it is only an orthographic war, directed against the French spelling "Peking" when referring to the Chinese capital. In American and English periodicals, the Chinese character for the city is usually spelled "Peking". This is the regular pronunciation, either in China or abroad, save in France. Chinese here say "Peking". The two syllables meaning "north" and "capital" respectively, while the spelling "Peking" is enough an unsatisfactory choice for the Chinese version than is any form in which "k" is omitted. There are several other foreign languages, but the French is the only one which is generally in competition with the favored "Peking" form.

## Clever Blind Student

Completes Four Years Arts Course

Gregory Sullivan, blind student, has become such a good student that he has been well equipped for a four-year course at the University of Georgia in three years. His election to Phi Beta Kappa national honorary fraternity, the highest honor that he has attained. He also won the French medal offered the student making the highest average in that language.

Sullivan, who is 23 years old, has a general average above 90 and will be graduated in June with a bachelor of arts degree.

Throughout his college career, he has relied mainly on friends to read his text books to him.

## Orders for Arm Implants

During the past few weeks large orders for arm implants have been received and the contract will be awarded as soon as they have been completed.

## New Depot for Edmonton

The Canadian Pacific Railway will build a new depot at Edmonton, Alberta, this year. The estimated cost is \$1,000,000. Tenders for the erection of the building have been received and the contract will be awarded as soon as they have been completed.

Every three large man, shrinks from his duty a small man rises to the occasion.

Worms feed upon the vitality of children and endanger their lives. Simple and effective remedy is Mott's Worm Expeller.

It was believed during the Middle Ages that a child brought up without being taught any language would speak Hebrew spontaneously.

## Made Clocks Reliable

Correct Time Not Recorded Until Discovery of Balance Wheel

Before the invention and manufacture of watches and clocks, all time was measured by the sun, moon and stars. The sundial is the earliest instrument of its kind, and sundials were used from an early date.

The art of clock and watch-making is believed to have originated in Germany.

The early watches were made in curious shapes, such as pears, skulls, purses and crosses. Some were set in the heads of cats, some in bracelets and other pieces of jewelry. These instruments had to be wound at least twice daily, and differed from the correct time by about an hour a day.

It was not until the discovery of the balance-wheel in 1656, by which the swinging pendulum itself even by and regularly, that they could be relied upon to record the correct time.

## She Has the Greatest Faith in Them

Says Mrs. Elliott of Dodd's Kidney Pills

Alberta Lady Strongly Recommends the Use of Dodd's Kidney Pills to all Sufferers.

"I live in Edmonton, Alberta (Spelled)—I have used your Dodd's Kidney Pills for some time, and for kidney and backache trouble they have worked wonders. I have great faith in them. I have heard great praise about them from a number of my friends and acquaintances. This statement comes from Mrs. Elliott, who resides at 707 1/2 Ave. W. Mrs. Elliott has come to thousands of other Canadians through the use of Dodd's Kidney Pills. Not only a few people who appreciate the great importance of keeping the kidneys in good order at all times. The kidneys are the purifiers of your blood. If the kidneys become clogged with impurities they cannot perform their functions properly. The blood, instead of being purified, is poisoned, and in time poisons the whole system, with the result that a condition may develop very serious.

## Grants for Civil Aviation

Air Patrols for the Protection of Millions of Acres of Forest Land

Recent estimates passed show \$2,222,500 allotted for civil aviation in this country, mostly in connection with forest and fire services. The programme this year includes air patrols for fire protection of over 70 million acres of forest land in central and northern Manitoba and northern Saskatchewan, and for fire detection patrols of over 31, million acres in the forest reserves of the (foothills of the Rocky Mountains in western Alberta. The air survey programme includes work in every province of the Dominion.

## Holds Many Famous Signatures

Guest Book in Babylon Hotel First

Used in 1805  
The old "Guest Book" of the famous 169-year-old "Three Moons" hotel, in Anchorage, Alaska, has not been written full and signified by a new one. It was first used in 1805, and probably contains more famous signatures than any similar book in the world. Napoleon I, the Duke of Wellington, Victor over Napoleon at Waterloo, Goethe, Sir Walter Scott, and Czar Nicholas of Russia are among them. If a register had been kept in the earlier days of the hotel's long history numerous other famous names would have been on its leaves.

Worms are encouraged by moist conditions of the stomach and bowels, and so on. Mott's Worm Expeller will alter these conditions almost immediately and will sweep the intestines clean. No destructive parasite can live in contact with this medicine, which is a safe, non-destructive, but a health-giving mild cathartic most beneficial to the young constitution.

## World's Shortest Railroad

The shortest railroad in the world now belongs to the city of Union, Ore., having been bought for the purpose of the building here a line of one mile long and the rolling stock includes one locomotive, one passenger and three freight cars. It sold for \$1,100.

There is no poisonous ingredient in Hollister's Corn Remedy, and it can be used without danger or in 1927.

The fourth is really a "fourth" or fourth part. Many people had grooves cut in them so they could be broken into four parts, or fourths.

Keep Minard's Liniment in the house.

## Why Bald So Young? Cicura will help You

To prevent loss of hair, Dandruff, usually the cause of premature baldness, may be easily removed by regular shampooing with Cicura Soap, prepared by tincture of Cicura, which is a natural hair restorer. It keeps skin clean and healthy and promotes hair growth.

## For Friendly Relations

Mr. E. H. Howard, British Ambassador to U.S., Addresses Banquet

A plan for continuation of friendly relations between the United States and England, which have existed for more than 100 years, was made by Mr. E. H. Howard, British ambassador to the U.S., at a banquet held here by the San Francisco Chamber of Commerce.

Referring to the question of the British war debt to the United States, Mr. Howard said: "We have not run away from the debt and do not intend to. But if at some later date you come to us and say you think it would be advisable to cancel the general interest to consider the question—well, I won't say that we shall reduce."

"There is the attack that has been made in certain quarters against the British Government over the question of the war debt," he continued. "It was agreed at the Washington conference that unless submarines of all powers were abolished, Great Britain could not have full freedom of action as to cruise construction. You have already passed us in destroyers and submarines and no one is kind and has thought of accusing you of violating the letter or the spirit of the 1906-1907 naval treaty."

Mr. Howard declared Great Britain had unjustly been accused of a sinister desire to hold the "poor" Chinese in perpetual bondage, thus deriving a wedge between England and this country.

## Re-open Milk Plant

One of the largest manufacturers of milk products in the province recently re-opened their condensing plant at South St. Mary's. The whole milk supply will be obtained from the Peace Valley, which will amount to about 60,000 lbs. per day. About 25 men and women will be employed in the plant, and the payroll will amount to about \$2,000 per month.

## Use DUCO for hundreds of home uses

PAINTING in the home used to be considered a man's job but DUCO has changed that old idea.

Brush DUCO has a particular appeal to women. It is so easy to apply and it dries in less than an hour. Thousands of women are using DUCO who never did any painting before.

When you go to buy DUCO, people may tell you that other products are just as good. Don't be misled. Insist on getting genuine DUCO.

DUCO Clear and four DUCO Stains are now added to the wide range of colors.

## Soviet Raids in London Is Raided By Officers From Scotland Yard

London.—One of the most spectacular raids in London's history, British district court place, when 41 men from Scotland Yard raided a house in the Soviet House in Moorgate and took charge not only of the Soviet officers, but the entire contents of the Russian trade delegation, whose officials are supposed to be immune from arrest.

The Scotland Yard men were reinforced by 50 uniformed policemen, who surrounded the five-story building, and an order was permitted to enter or depart without permission. Acting under the instructions of the Home Office, they took complete charge of the entire building.

Last February the British Government sent a note to Soviet Russia protesting against the Soviet propaganda directed at Great Britain in China, Persia and elsewhere, and particularly in Great Britain. The note warned against the "completely unsatisfactory relations" between the two governments.

Sir Austin, Canadian minister, secretary, told the House of Commons on April 7 that there was no prospect then of Great Britain breaking off diplomatic relations with Soviet Russia. In a previous statement Sir Austin warned that there were limits to the British government's patience with regard to British propaganda. Since then there have been no outward developments in the situation.

## Irish Free State Cannot Claim Bonds

Is Not Successor to Irish Republic Says U.S. Judge

New York.—Superior court Justice Peters dismissed the suit brought by the Irish Free State claiming to be the successor of the "Irish Republic" and entitled to the \$2,500,000 bonds, the unexpended portion of more than \$6,000,000 subscribed for in the United States for the republican cause.

Justice Peters also denied the claim of Eamon De Valera and his co-trustees, O'Mara, to the bonds and ruled that the proceeds from the sale of the bonds should revert to original subscribers.

Justice Peters, in his decision, refused to allow the claim of the Free State that it was a successor to the self-styled Irish Republic on the ground that, as a free state, the republic had never existed and therefore could have no successor.

## Prince Will Be Kept Busy

Has Many Engagements Before Leaving for London in July

London.—Looking healthy and healthy, the Prince of Wales has returned from his trip to France and Spain, which kept him away from home about a month. He was accompanied on his return by Prince George. They were greeted at Waterloo station by the Spanish ambassador, to whom the British king's representative remarked that he had enjoyed a very pleasant time in Spain.

The Prince of Wales is enjoying a full list of engagements, both public and private, before he leaves for his trip to Canada in July.

New Cruisers Have Long Range

Sydney, Australia.—The new Australian cruisers, Canberra and Australia, now being ordered by the British, have a length of 490 feet, with 65 feet beam, and will carry 2,400 tons of fuel oil. They are designed for a speed of 31½ knots, compared with 35 knots in the latest American and Japanese cruisers, but their range of action will be much greater.

Admiral at Fleet Head

Dorset, Eng.—Lord Kerr, Admiral of the Fleet, is said, says H. H. H. in 1935, Walter Talbot Kerr entered the navy at the age of 14. After 51 years of distinguished service, during which time he served at the battle of Falkland, in the Mediterranean, command of the Channel command and was not rate secretary of the First Lord of the Admiralty, he was named admiral of the fleet in 1934.

Parties Almost Inevitable

St. John's, Nfld.—An investigation into which the parties are almost inevitable opened its session here May 1. Premier Murphy will have 105 members in the legislative assembly, while the opposition will number 17.

W. N. H. 1645

## Strange Phenomenon In Owen Sound Harbor

Water Moved Out and Returned Much Sooner Than Expected

Owen Sound, Ont.—Waters in Owen Sound harbor and the St. Lawrence river were stirred up mysteriously recently, and it was found that the water level was much higher than normal. Within a few minutes the water in the harbor moved out so that the level was not lower than usual.

When the water returned, the level was much higher than normal. At one time the water in the harbor got so low that some boats were resting on the mud at the bottom.

## No Change in Policy

Britain Will Keep Mission to the Holy See

London.—Maintenance of an official British representative at the Vatican now can be regarded as a permanent policy of the British Government, Sir Austen Chamberlain, the Foreign Secretary, announced in the House of Commons.

"The Government does not intend withdrawing the mission to the Holy See," said Sir Austen. "It was found convenient to establish this delegation at a time of international tension and difficulty, and to withdraw it would mean an almost offensive action to adopt."

British relations with the Holy See were established in 1914.

## NO RETALIATION ON ACCOUNT OF BORDER RULING

Quebec, P.Q.—There will be no effort at retaliation on the part of the United States because the United States have chosen to restrict the movement of Canadians who are employed in the United States, they are hoping that the whole matter will be amicably settled at the conference, declared Hon. Robert Forke, Minister of Immigration in connection with dispatches that the Department of Immigration had decided to investigate the number of Americans employed in this country as a means of retaliation against the United States.

Hon. Mr. Forke said from Quebec on board the Empress of France, for a three months' tour of Europe. He is accompanied by Hon. and Mrs. Forke, and there is a possibility of a visit to the United States. He said that the United States had decided to restrict the movement of Canadians who are employed in the United States, and he hoped that the whole matter will be amicably settled at the conference.

A possible increase in the 3,000 family service whereby the number of families which will come out of this country under the plan will be increased to 5,000, was voted by the minister.

"Of course," said Mr. Forke, "this is a matter that is largely up to the Imperial Government, but as regards the 1,200 pilot families that are asked to come out under the scheme this year, we will place them in this year, we will place them in this year, we will place them in this year."

To Build Big Hospital

Toronto.—Mr. A. E. Buesala, recently introduced a petition regarding the Women's College Hospital to the provincial secretary. It is the intention of the college to build a new million dollar structure on property acquired. The new hospital is to have 150 beds. The provincial secretary promised consideration.

Increases in Canada's Trade

Total During Twelve Months Shows Advance of Forty-two Months

Ottawa.—Canada's trade total increased approximately \$45,000,000 during the twelve months of the fiscal year ending March 31. Total trade for the 12 months was \$2,285,645,447, as compared with \$2,240,645,447 for the previous 12 months and \$1,878,241,810 in the 12 months ending March 31, 1925.

The twelve months just ended witnessed a decrease of approximately \$61,000,000 in Canadian exports and an increase of approximately \$105,000,000 in imports when compared with the 12 months of the previous fiscal year.

## GOOD PROGRESS BEING MADE ON H. B. RAILROAD

Work on the line is well advanced

Following completion of a trip of inspection to the end of the line on the Hudson Bay Railway, Hon. Charles A. Dunning, Federal Minister of Railways and Canals, declared he was gratified by the amount of work completed and severely criticized the manner in which the rehabilitation of the line has advanced.

Weather and other conditions, coupled with some difficult engineering problems, had tended to interfere with the progress of the work, but Mr. Dunning felt that these had been obviated and that, allowing for the late spring, those in charge of the building program now have their schedule well in hand.

The trip to Kettle Rapids, on the Nelson River, was made by train and then to the Limestone River, Mile 350, the end of steel, by speeder. To terminal work constructed at Bowden, Mile 317.

Wednesday, Mr. Dunning and party inspecting the roundhouse, coaling plant, and other work now well underway at that point.

W. A. Kingsland, general manager, Western region, Canadian National Railway, H. B. Railway, and J. C. MacLellan, divisional engineer in charge of construction, accompanied the minister on his inspection tour.

May Press For Settlement

Possible Claim May Be Filled Over Seizure of Federal Ship

Vancouver.—Possible filing of claims by the Consolidated Exporters, Limited, against the Government, in connection with the recent seizure of the liquor-laden steamer, *Federator*, was indicated here by Harold Paulsen, San Francisco attorney, who was in Vancouver conferring with officials of the consular office.

Mr. Paulsen said he was anxious because of admission of illegal seizure by the United States of a vessel of foreign registration, the way is open for normal and physical claims in connection with damages sustained by the company and crew, according to the company's statement.

He said that the company is not making any claim, but is making immediate and, if claims are sufficient to warrant a procedure, to press for settlement.

It is the intention of the college to build a new million dollar structure on property acquired. The new hospital is to have 150 beds. The provincial secretary promised consideration.

Increases in Canada's Trade

Total During Twelve Months Shows Advance of Forty-two Months

Ottawa.—Canada's trade total increased approximately \$45,000,000 during the twelve months of the fiscal year ending March 31. Total trade for the 12 months was \$2,285,645,447, as compared with \$2,240,645,447 for the previous 12 months and \$1,878,241,810 in the 12 months ending March 31, 1925.

The twelve months just ended witnessed a decrease of approximately \$61,000,000 in Canadian exports and an increase of approximately \$105,000,000 in imports when compared with the 12 months of the previous fiscal year.

To Build Big Hospital

Toronto.—Mr. A. E. Buesala, recently introduced a petition regarding the Women's College Hospital to the provincial secretary. It is the intention of the college to build a new million dollar structure on property acquired. The new hospital is to have 150 beds. The provincial secretary promised consideration.

## Forecast Heavy Grain Shipments to Europe

Large Volume of Tonnage Has Already Been Chartered

Port William, Ont.—Record grain shipments have led head of the lakes service for an official opening of navigation April 18, according to a report issued by F. A. Urzila, assistant to the grain commissioner.

"Shipment to April 29 totaled more than 40,000,000 bushels and heavy export shipments from rechartered ports to Europe during the month, during the early part of June are forecast in the report."

Mr. Urzila says:

"From reports received from different sources, the export movement from Atlantic seaboard ports to Europe will be very heavy throughout May and at least the early part of June. A very large volume of tonnage has been chartered already, aggregating close to 100,000 tons of all grains. These heavy purchases undoubtedly are occasioned by a more or less steady decline in prices. Although statistics of the world's wheat show an ample surplus of supplies in exporting countries over indicated requirements by importers, the export of the rice and potato crops of 1925 are partially responsible for a decline in wheat prices."

It is apparent, Mr. Urzila points out, that a large portion of export grain will be shipped via United States Atlantic seaboard ports. A heavy volume of tonnage having been chartered, it is estimated that more than 100,000 tons of grain will be shipped via the British ports and Antwerp-Rotterdam.

Many Unemployed Men Available for Farms

But Demand in Alberta is Expected to Drop Off

Edmonton.—With about 5,000 men placed in farms, employment has been out the province this season, the peak of the spring farm labor situation has been reached, according to Walter Stettin, director of labor and from now on the demand will be steadily dropping off. There are still a great many unemployed men available for work on the farms if wanted, but the lateness of the season, the reduced acreage in consequence and the increased unemployment are combining to restrict the calls for help from Alberta farmers.

Notwithstanding the more or less unusual features of the situation this spring, the total number of men placed in farms is about the same as last year. About 5,000 placements on farms were made for the same period a year ago.

Sends Demand to China

Japan Wants Soldiers Removed From Consulate at Nanking

London.—Japan has peremptorily demanded that the Chinese authorities at Nanking give orders immediately for the withdrawal of soldiers occupying the Japanese consulate at Nanking, and for the removal of the Japanese soldiers from the consulate.

The twelve months just ended witnessed a decrease of approximately \$61,000,000 in Canadian exports and an increase of approximately \$105,000,000 in imports when compared with the 12 months of the previous fiscal year.

**INCUBASE SUGAR COOP**  
Raymond, Alta.—The sugar beet  
crop this year will exceed that of  
1926 by 1,000 acres or more, says T.  
George Wood, district manager of  
the Canadian Sugar Factories, based  
from a business trip to Calgary and  
Edmonton. The average last year  
was 5,500. The sugar attracted a  
good deal of attention at the recent  
"Made in Alberta" exhibition in Cal-  
gary.

carload of mountain sheep from  
Bant National Park and another of  
Bik from the Wainwright National  
Park are being brought to this pro-  
vince and will be released in the moun-  
tains near Spear's Bridge, according  
to M. B. Jackson, chairman of the  
Provincial Game Conservation Board.

**THE BASSANO MAIL.**  
Wallace J. Smith  
Editor and Publisher  
Subscription \$2.00 a year, \$2.50 to the  
United States.  
—Bassano Star.

What Canada needs most is a golf  
ball that will go straight after it is  
hit.  
Medicine Hat is having a "dande-  
lion week." How about a "Russian  
thistle week?"

Richard Washburn Child says  
people talk too much. Constant  
talking, he says, is a great physical  
strain, and saps the energy of the  
body. Perhaps that is why they can  
call women the "weaker sex."

**HACKING THE POOL**  
No. 13 is not the Wheat Pool. This  
is our own little pool right here in  
Bassano. This is the Bassano  
Swimming Pool we are talking about.  
And it is something that deserves  
the support of everyone in the com-  
munity.

The hot summer weather is ap-  
proaching—unless we get a sum-  
mer's summer as some of the scientists  
estimate. But we should not bank  
too much on that. We should get  
out and build our pool, and have it  
ready so we can have the use of it  
the whole summer season.  
The only way to do this is to sell  
the tickets and turn the money over  
to the swimming pool committee. So  
far the committee has worked with  
a one hundred per cent efficiency.  
They have done everything that could  
be done. It now rests with the pub-  
lic to supply the necessary funds.  
Let's all work—sell our tickets—  
and turn the money over to the commit-  
tee—and they will see that we get the  
swimming pool.

**THE HUSSAR STAMPEDE**  
Stampede time comes around again.  
The 4th annual event of this kind  
is being put on by the Hussar Board  
of Trade on Tuesday, May 24th.

The birthday of Queen Victoria has  
now become established as "Hussar  
Day" in this part of the province. On  
this day the people of Hussar and  
district hold their annual celebra-  
tion.  
The past four years has seen four  
very successful celebrations at Hussar.  
The annual event always draws a  
large crowd, and the people always  
are enthusiastic to a good program of  
sport.  
The town and district of Hussar  
are growing, and with it the stam-  
pede is becoming larger, and the  
program of entertainment better and  
more varied.

The stampee, management has  
been working hard to make a real  
day of it on the 24th. They deserve  
the support of the whole community.

To those who regard  
a car as an  
**Investment**

**McLAUGHLIN-BUICK** enjoys the  
largest measure of public confi-  
dence and popular acceptance ever accorded  
any fine car because McLaughlin-  
Buick represents the safest investment,  
the firmest security and the highest  
return.  
The buyer of a McLaughlin-Buick con-  
sciously invests his money in more miles  
of transportation, in greater comfort  
and luxury, in more satisfying performance,  
in absolute dependability.  
Such phenomenal advances as the Mc-  
Laughlin-Buick Engine, Vibrationless  
beyond belief—Torque Tube Drive—  
Mechanical Four-Wheel Brakes—Sealed  
Chassis—Vacuum-cleaned Crankcase—are  
evidences of the firm determination  
to keep McLaughlin-Buick always the  
standard by which automobile invest-  
ment values are judged.  
Those who regard a car from an investment  
standpoint should first consider McLaughlin-  
Buick, not merely its quality and beauty today  
but its lasting dividends of undiminished  
satisfaction.

"You say the physician had been  
drinking," said his worship to the  
politician who was giving evidence.  
"Drinking what?" "Whiskey, I  
think," replied the constable. "You  
think," stormed his worship. "Don't  
you know the smell of whiskey?"  
"Isn't you a judge?" Came back  
the reply. "No, I'm only a police-  
man."

**TENDERS FOR COAL**  
SEALED tenders addressed to the  
Purchasing Agent, Department of  
Public Works, Ottawa, will be re-  
ceived in his office until 12 o'clock  
noon (daylight saving), Wednesday,  
June 8, 1927, for the supply of coal  
for the Dominion Buildings and Re-  
sidential—Paras and Stations  
throughout the Provinces of Manito-  
ba, Saskatchewan, Alberta, and  
British Columbia, and at Kenora,  
Ontario.

Forms of tenders with specifica-  
tions and conditions attached can be  
obtained from G. W. Owsen, Chief  
Purchasing agent, Department of  
Public Works, Ottawa; J. E. Cyr,  
Supt. of Dominion Buildings, Win-  
nipeg, Man.; H. E. Matthews, District  
Resident Architect, Winnipeg, Man.;  
G. J. Stevenson, District Resident  
Architect, Regina, Sask.; J. M.  
Stevenson, District Resident Archi-  
tect, Calgary, Alta.; and J. G. Brown,  
District Resident Architect, Victoria,  
B. C.

Tenders will not be considered un-  
less made on the above mentioned  
forms.  
The right to demand from the suc-  
cessful tenderer a deposit of not ex-  
ceeding 10 per cent of the amount of  
the tender, to secure the proper ful-  
fillment of the contract, is reserved.  
By order

Lay flat poultry netting. This  
is a lighter fence made especially  
for poultry, 2 in. spacing also 1  
in spacing for small chicks

**82 REASONS WHY THE  
FORD CAR  
IS THE BEST BUY**

IMPROVEMENTS ON THE FORD DURING 1926 AND UP TO DATE

1. Hotter Hot Plate Vaporizer
2. Special Oil Retainer (stops oil leak at crank shaft)
3. Improved Fan Pulley
4. Improved Cylinder Head Outlet Connection
5. Improved Fan (blade pitch increased)
6. Coil Box Under Hood
7. Redesignated Switch Assembly
8. Redesignated Ammeter
9. Redesignated Horn Assembly
10. Valve Cover Plate (no hole) Quieter
11. Wilder Brake Drum
12. Transmission Cover Bolted to Engine Block
13. Anti Vibrator Stay Rods
14. Magneto Control Assembly redesigned (screws into cover)
15. Clutch Drum Keys protected from wear by hardened steel shoes
16. Pedals redesigned
17. Quick Change Band Rear redesigned
18. Hand Brake Lever Assembly set ahead
19. Larger and Wider Emergency Brakes
20. Emergency Brakes lined
21. Rear Axle Retainer Washer (to increase efficiency and life of leather dogs washer)
22. Redesignated Porches (to lower centre of gravity)
23. Redesignated Rear Radiator Rods
24. Redesignated Emergency Brake Cams
25. Spindle Bolts redesigned (to lower centre of gravity 1 1/2 inch)
26. Redesignated Front Spring to lower centre of gravity 1 inch
27. Radiator Apron Bolted to Front Spring Clip
28. Frame Heavier
29. Fender Irons channel construction
30. Radiator redesigned (4 tubes staggered)
31. Radiator Cap and Gasket redesigned (will not leak)
32. Redesignated Engine Hood (more hours—cooler engine)
33. Leather Bumpers Rear Corrosion
34. Weather Strip Cover Ventilation
35. Fenders redesigned (heavier, bolted in six more places)
36. Front Fender Brace (kill vibration and rattle)
37. Head Lamps redesigned (adjustable)
38. Running Boards redesigned (wider and heavier)
39. Running Board Shield redesigned
40. Gas Tank Moved to Under Cover
41. Solidment Bolt redesigned and under engine hood
42. Safety Drain from gas tank filler recess
43. Steering Gear Gasket redesigned
44. Dash Redesignated (stronger)
45. Balcon Tires standard equipment
46. Wire Wheels redesigned
47. Tire Carrier Redesignated
48. All Steel Bodies
49. Lacquer Finish
50. Doors (open) hinges toward front—more convenient
51. Steering Column more securely braced
52. Upholstery redesigned (better material)
53. Seat Cushions, Deepers—more comfortable
54. One Piece Windshield
55. Centre of Gravity, i.e. frame, lowered 1 1/2 inch with former road clearance

Twenty-six other improvements giving greater efficiency to the car

### Plan Road Program For Coming Season

Committee of Local Improvement  
District Council Resident Engineer

A committee representing Local Improvement District No. 217 and another committee representing Local Improvement District No. 247 held a meeting in Hussar Monday afternoon May 16. Resident Engineer P. J. Graham attended the meeting, and with the committee men went over the road building program for this summer.

Considerable grading work and bridge building work were mapped out. The committee plan on planning the money as economically as possible so as to get the most work done for the money.

### Hussar People Build Fine Community Hall

Will be Ready for Opening on Stampede Day, May 24th

Work is progressing on the new community hall at Hussar. With everybody busy seeding and doing spring work, there has not been much time during the past couple of weeks to work on the hall, and the building has not been nearing completion as rapidly as it might. The opening day, however, May 24th, will see the floor and roof finished, and the hall in shape for the big stampede dance. The walls will be finished later.

The hall is a large, roomy building measuring 40 feet by 80. On one side the Women's Institute have built an addition measuring 12 by 49 feet. This room will be used for a kitchen for preparing and serving lunches.

The people of Hussar district have displayed an exceptional amount of energy and enterprise in launching such a big undertaking as the building of their community hall. When completed the building will cost in the neighborhood of \$4,000, and it will be one of the finest halls in this part of Alberta.

### Hussar News

HUSSAR, May 18—Andy Anderson has started a truck service between Hussar and Calgary.

There will be a dance in the new community hall on Saturday, May 21. Come and help test the new floor.

R. Armstrong and T. Hawkshaw drove to Calgary Tuesday and Art returned Wednesday with a new Essex coach.

The Ladies Aid visited the Women's Institute at Chancellor Wednesday. The piano was moved to the new hall Wednesday, and tuned ready for the 24th.

N. Stewart, formerly of Bassano, is helping T. A. Hawkshaw.

The station has received a new coat of paint inside and out which adds much to its appearance.

Currie & Milroy and H. D. Brown have both installed oil trucks, and will deliver oil to customers.

John Hurn, the sold his coupe to P. P. C. Farley, and has a new Chevrolet coupe.

Mr. and Mrs. A. A. Clifgard were Calgary visitors last week.

Seeding will be practically all finished in this district by May 24th, and then everyone will be rarin' to go on Stampede day.

A. A. Clifgard and family spent Sunday with Miss Virian Clifgard who is employed in the bank at Muskeg.

The yellow bus makes daily trips to Calgary, leaving Hussar at 7:15 a.m. and returning at 9:15 p.m.

The floor is being laid in the community hall and will be ready for the big dance May 24th, stampede day in Hussar.

The Ladies Aid met with Mrs. Hought Thursday afternoon. A delicious lunch was served to fourteen ladies.

Elwood Pettie enjoyed the week in Calgary.

Serg. Robt. Wright, of Bassano, was in town Tuesday.

Miss Mary Kyles attended the dance at the Lawson school Saturday night. The crowd there was large and an enjoyable time spent by everyone.

Gordon LeGrandeur came from Bassano to spend the week-end with his parents, Mr. and Mrs. K. LeGrandeur.

See you at the  
Stampede.  
You bet! I'll be there!

## R. JANZ

GENERAL MERCHANT

HUSSAR

ALBERTA

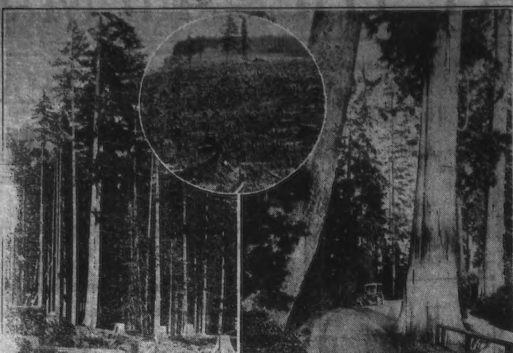

THIS IS HUSSAR'S FIFTH ANNUAL STAMPEDE. THE PEOPLE IN THE WHOLE COMMUNITY ALWAYS COME TO THE HUSSAR STAMPEDE BECAUSE THEY KNOW THE HUSSAR STAMPEDE SHOWS THEM A GOOD TIME, AND THERE IS SOMETHING TO SEE WHEN THEY GET HERE.

WHEN YOU COME TO THE STAMPEDE CALL AT THE JANZ STORE AND GET YOUR USUAL PLEASANT SMILE.

OUR ICE CREAM PARLOR IS JUST AS NICE AS YOU CAN FIND IN ANY COUNTRY TOWN.

WE BUY OUR BEEF DIRECTLY FROM THE FARMERS. THE MEAT THAT YOU BUY IS HOME KILLED. WE HANDLE THE FINEST LINE OF GROCERIES AT A VERY REASONABLE PRICE. ALSO BOOTS, SHOES, OVERALLS, AND DRY GOODS.

## Canadian Wealth Goes Up in Smoke

**Loss—Night-of-Way near Alberta, B.C. Night-Motoring**—Fire clearing in Vancouver Island forest fire situation in Canada during 1930 again proved a very serious one. Indifference, ignorance and carelessness, and other involuntary factors meant a total loss and gross damage to Canada last year estimated at \$1,468,343. Since the exploitation of Canadian forests first began it is estimated that from four to five times the amount of timber actually used has been burned through forest fires. When it is recalled that the forests are the second greatest source of wealth, agriculture being first, the waste from forest fires each year can only be likened to the damage done by four-fifths of Canada's great field crops were destroyed each year.

Forest work has been observed this year in Canada from April 25 to 30, coming in the middle of a season when forest fires are often most serious. Perhaps the greatest offenders against the national wealth of the country during the summer and fall months are a great army of tourists and campers which invade the woods from the Pacific to the Atlantic every year.

Stop! Before You Go. See that Your Fire is Out! Warnings wanted something to that effect have been posted generally throughout the northern woods, especially in Ontario, and of the thousands of campers there are some who are not familiar with the bright yellow placard and its warning. Yet a do-able number of tourists who call themselves good campers apparently think that such signs have been posted by the fire rangers merely to point out a good postage.

Burning cigar ends and cigarette stubs and, above all, the little camp fire that doesn't look as though it could do a bit of harm in the world, are the cause of great fire trouble in the northern woods that mean a loss of millions annually to Canada.

It has been proved that some of the worst forest fires have been started by some apparently petty care-

lessness of a camper, and could have been prevented had he stopped for a minute or two and thrown a few pails of water on the smouldering embers. The camper who fails to take this slight precaution is guilty of a great crime against his country.

The introduction of appliances into the first patrol work in the north is proving of incalculable value to the country. The great advance that has been made in forest fire fighting today is through the fact that fire-detection and fire-suppression have been separated through the use of the scout planes. Formerly these could scarcely be a division of labor. Rangers were assigned to long beats which might take a fortnight to cover, who patrolled these singly or in two or three, who limited was the protection thus afforded for the danger discovered a fire too large for one man to handle it might take a week for him to communicate with headquarters for help.

The Canadian Pacific Railway Company have paid special attention to this serious question and have adopted most up-to-date fire fighting apparatus. In order to eliminate fire along their lines through sparks from engines, the right of ways are carefully cleared of anything inflammable, such as long grass and underbrush. During the passage of the company's trains through the mountain regions where the forests are heavy, oil-burning engines are used, thus entirely eliminating the danger of fire.

The mechanical equipment maintained at convenient points by the C.P.R. consists of a number of tank cars and hose. Each unit consists of two cars with a capacity of 7,000 gallons each, equipped with powerful pumps and hoses of five miles of hose.

Through the co-operation of the railway with the various provincial forces many serious fires have been prevented, resulting in an enormous saving of Canadian natural wealth.

## Here and There

**Experiments in the Pacific Coast**—methods of halibut fishing are now being made by R. H. Carr, of Vancouver, B.C., with his new halibut fishing boat, "Patrol" "Patrol" II," following his extensive studies on the Pacific Coast.

The Canadian Pacific's gross earnings for the first quarter of the year were the largest on record for that quarter, at \$4,252,000, or an increase of \$2,591,051 over the corresponding quarter of last year. Not, however, was a little lower than last year at \$4,462,025, compared with \$4,331,097.

Madame Jane Slon, champion of European women swimmers, arrived in Canada about the middle of May on the Canadian Pacific steamer "Montana" from Antwerp. She will take part in various swimming "marathons" in Montreal and other centres in both Canada and the United States, including events at the Toronto Exhibition.

The total catch of seafish on both the Atlantic and Pacific coasts during the month of March showed an increase of nearly 3,000,000 pounds over the catch for the same month last year. The catch amounted to \$1,003,800 pounds, valued at \$1,294,726, according to a report of the Department of Marine and Fisheries. The increase was due to the increased catch of herring on the Pacific Coast.

Two thousand politicians from the United States will attend the forthcoming World's Poultry Congress, to be held at Ottawa July 27 to August 4. The congress will be headed by the Hon. W. M. Jardine, Secretary of Agriculture, officially representing the Government. He will be accompanied by both Canada and Secretary E. W. Dunlop. Some 25 States are participating.

That the prospects for British cattle coming to New Brunswick were good, that, in fact, arrangements had already been made for bringing a substantial number of British families to this province, was asserted by J. A. Murray, provincial superintendent of Colonization and Industry, who has returned from England where he was acting in the interests of the Government. He has received many enquiries as to the settlement prospects in New Brunswick.

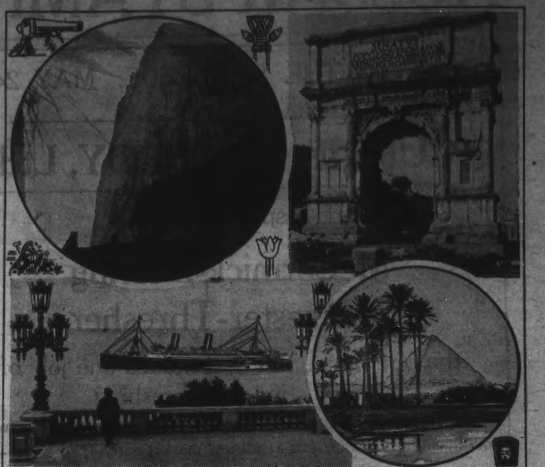

That Calgary district has again taken its place in the front rank as a producer of horses in the Dominion was pointed out by G. H. Hutton, President of the Calgary Rotary Club, who declared that 37,000 pounds of horses had been shipped east from Calgary in three weeks recently. Indicating the growth of the industry in the district he pointed to the large number of entries received for this year's Horse Show, totalling more than 800, as compared with 600 last year.

Evidence of the interest in the new departure among Canadian Pacific locomotives known as the G-3-A type or "Pacific" engine in its remarkable combination of greatly increased power and efficiency with a very slightly increased weight, is furnished by the fact that principals of twenty-five technical schools in the east of Canada and nine in the west have requested photographs of this locomotive with a view of having them in these schools for the information of the children.

Gus Tunney, world's champion heavy weight boxer, arrived in Montreal at the Canadian Pacific Windsor Street Station, May 6, and proceeded to his home in the Laurentian Mountains. He was preceded by motor to Five Rings Lake, spending several days fishing. Tunney was accompanied on the outing by W. O. McGeehan, sporting editor, New York Herald-Tribune, and W. A. Davenport, of Collier's Weekly. Mr. Tunney declared that he was scheduled to fight the winner of the elimination match this year. He visited Canada in 1920 and 1921, when he went into the lumber camp operated by the Booth organization in order to harness his hands.

Canadian licensees will soon be using the new and improved white pigment called "Titanium White" to be used in the same way as white lead according to Mr. Hous, of Montreal, states that plans are now being completed for the erection of a plant in Montreal for the production of this pigment. The development of this branch of the Department of Industry is being pushed forward by the Canadian Pacific Railway, which has been asked to further the establishment of the industry.

## Carrying the Canadian Flag to World Ports

Upper left—The ship of Empress of France lying at anchor off the fashionable coast of Monaco. Upper right—The ship of Empress of France lying at anchor off the fashionable coast of Monaco. Lower left—The ship of Empress of France lying at anchor off the fashionable coast of Monaco. Lower right—The ship of Empress of France lying at anchor off the fashionable coast of Monaco.

A evidence of the popularity of Canadian ships, at from place to place under one management on ship and shore. This charter worry to the passengers, as every small detail incident to foreign travel is worked out and seen to by the cruise managers and directors, intricate money transactions in foreign currency in the two-months' voyage to many of the world's "high spots".

The cosmopolitan group of wanderers was composed of people from every branch of activity in North America. Some were habitual globe trotters, but in the main they represented the average successful citizen going abroad with the satisfaction of having achieved his life's desire—travel. Every province and state in this continent was represented.

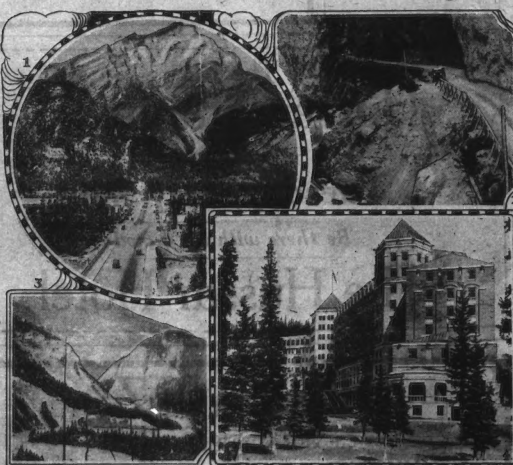

According to recent statements made by Walter Maughan, steamship passenger traffic manager, cruising to the four corners of the earth has come to stay. The traveler of the hour approves of the arrangements made by experienced hands, and of going

## Another Link in Transcontinental Highway

(1) Main crest of Banff seen from Spenser Mountain. (2) A section of the Banff-Windermere highway passing through the picturesque Canyon. (3) Road cut through the new highway winds. (4) The C.P.R. station at Lake Louise.

The opening of the Field-Golden Highway this summer will mark another great step in the completion of the all-Canadian highway from coast to coast. The continuation of the motor road, which last year was extended from Lake Louise to Field, has been carried on this winter by the Parks Department, and penetrates fifteen miles farther into the mountains to the western boundary of Yoho National Park, where it joins the new seventeen-mile extension from Golden.

The new road winds through one of the most picturesque sections of the Park—filled with associations of Palliser, of Hector, of memories of empire builders and pioneers. Dark canyons, silvery falls, green-white rivers break the high peaks.

Winding out of Field, the C.P.R. station for Emerald Lake, where the train turns his watch back an hour, and over the Kicking Horse river, the road follows the Emerald Lake trail for some miles while a wonderful view of the valley unfolds. It passes deserted cabins, Indian graves and an old German Indian camp. After leaving Emerald on the Canadian Pacific Railway it continues around the foot of Mount Yoho and finally reaches the town of Hope, a branching road of a mile or so reveals the Kicking Horse Falls, a fabulous cascade in a setting of beautiful jagged peaks. The road winds on through the deep

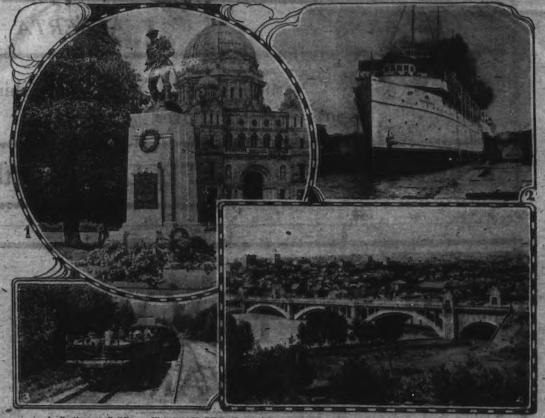

pass of the Kicking Horse to Golden on the banks of the Columbia river.

The construction of the Field-Golden Highway presented some very difficult engineering problems because of the steepness of the slopes of the side hills. A good deal of excavation had to be done in solid rock. The probable cost of the new highway on account of the difficult topography is estimated at \$2,000,000.

There will be constructed this summer a three-day circle tour from Banff and Lake Louise, covering much of the most picturesque scenery in the Banff-Windermere road, the second, the section between Radiant Hot Springs to Emerald Lake by way of Golden and Lake Louise, and returning the third day to Banff and Lake Louise.

It should only be a short time now before the whole of Canada's mountain world is opened up to the motorist. From Golden to Revelstoke to the last uncompleted link of the first great transcontinental road. The distance in all is ninety miles, but short perfect roads have already been built from town to town on the route. There is an old railway grade available for a distance of some miles. It is estimated that in only fifty-seven miles of road remaining to complete direct connection across Canada.

## Canadian Teachers Tour Canada

1. Postmaster Building, Victoria. 2. C.P.R. Great Lakes steamer looking through Strait of Juan de Fuca. 3. Open air observation car looking the journey across the Rockies. 4. View of the city of Calgary.

That a thorough personal knowledge of every section of the Dominion is a necessary part of the education of the Canadian teacher, is the opinion of a large body of teachers who will journey across Canada on the Canadian Pacific line this summer. The tour is being organized by the Canadian Teachers' Association, which is holding its annual convention in Vancouver.

The tour will be a most interesting one, as it will include a visit to the most beautiful scenery in Canada, and a visit to the most important cities of the Dominion. The tour will be a most interesting one, as it will include a visit to the most beautiful scenery in Canada, and a visit to the most important cities of the Dominion.

The Canadian Pacific Railway has opened to the public a new and improved service, which will be a most interesting one, as it will include a visit to the most beautiful scenery in Canada, and a visit to the most important cities of the Dominion.

## Local News

R. C. services will be held in Bassano next Sunday morning at 11.30.

N. Stuart is employed in the T. A. Hawshaw store at Husar.

Mrs. McKee left on Monday for a few days stay with her sister, Mrs. Calder at Medicine Hat.

Wm. McEwan and A. G. Bond were visitors to Empress on Monday, May 16th, on court business.

Mrs. Patrick, Mrs. Hartley and Miss Nichol were visitors to Brooks on Sunday.

Walter Dragan left on Wednesday night for Carstairs, where he has been transferred to the Royal Bank of Canada.

Art. Flanagan suffered a broken wrist bone when cranking his car on Saturday evening.

Mr. and Mrs. J. S. Ogilvie were visitors at the home of Mr. and Mrs. H. O. Bradin on Saturday.

Alban Hobbs, an old time Bassano boy, came in from Clivale on Saturday, taking his mother and brother out to the farm for the summer.

H. Hulin of Husar was in town on Friday.

Arthur Flanagan and Richard Agate spent Sunday at the Flanagan farm near Hutton.

Get ready for the jovial day of the season on the King's birthday, Friday, June 2. Managed, conducted and run by F. M. and the three S.S.S.

W. J. Redmond is the owner of a new Chevrolet touring car.

H. F. McDonald is driving a new Chevrolet touring car purchased from W. E. Sambrook, local Chevrolet dealer.

Miss Madeline Monds, of Medicine Hat, visited for a few days in Bassano with Miss Myrtle Ballie.

Miss Myrtle Ballie spent the weekend in Calgary.

Corp. Melroy, of Stettinville, was in town Wednesday attending court business, and incidentally to visit at Harmony Chapter H. A. M. meeting.

Another car of horses was shipped east Wednesday. The buyers purchased some splendid animals from local stock raisers.

Walter Thacker was in town from Rosemary Thursday. He says good progress is being made in seeding.

R. Riddell, who purchased the 1000 acre Duck Lake farm, has in all his summerfallow, and will start breaking new land immediately.

The Crowfoot Colony has almost all of their land in, and it is a regular field of strong green coming through in fine style.

Joe Hein was in from the Wintering Hills, north of Husar. Weather is holding up seeding. He has 500 acres in and showing up.

Frank Wolfe, the Wintering Hills horse rancher, was in Bassano Thursday.

P. D. Williamson, of Gen. drove in on Thursday.

D. Macadam, manager of the Royal Bank at Brooks, was in Bassano last Thursday.

## Why Not Have an Estate Now?

The first payment on a legal reserve life insurance policy creates an immediate estate equal to the face value of the policy.

Your ultimate purpose in creating an estate of \$10,000, \$50,000, or \$100,000 by a definite or indefinite date, cannot thereafter be defeated by the causality of death.

Life insurance is the proof, thief proof, tax proof, fool proof. Its benefits are secure. Its provisions are unchangeable.

In no other way can an estate be created and established by the payment of such a small instalment.

Such an estate can be created by a deposit of from 3 per cent to 5 per cent of the face value of the policy.

## SUN LIFE ASSURANCE COMPANY OF CANADA

E. A. Beck, Local Representative, Bassano

### NOTICE

Advertising Office of John Wana-maker, as He Himself Stated It

On the policies here set forth we built one of the world's greatest retail successes. They deal with the store, newspaper advertising, and for over half a century have been lived up to. Read them:

"Continuous advertising, like continuous work, is most effective."

"If there is any enterprise in the world that a quitter should leave alone, it is advertising."

"Advertising does not jerk; it pulls."

"It begins very gently at first, but the pull is steady."

"It increases day by day, year by year, until it acquires an irresistible power."

"To discount your advertisement is the same thing as taking down your sign."

"If you want to do business, you must let the public know it."

"I would as soon think of doing business without clerks as without advertising."

This statement, by John Wana-maker, was the belief on which he acted throughout his long and amazingly successful career.

Good goods, fair prices, and good service stood behind his advertising. But always his advertising reached out and brought customers within range of what he had to offer.

### BEETS AT RED DEER

Raymond, Alta. - The Canadian Sugar Packers Co. Ltd. have started growing beets on half an acre of land in the vicinity of Red Deer this summer for test purposes. If successful, a new plant is likely to be set up in that vicinity.

### IN MEMORIAM

In loving memory of our dear Edith, who died May 19th, 1926. One year has passed since that sad day.

God called the one we loved away. For in our hearts she liveth still. Forget her, no, we never will.

—Ever remembered by her Mother, Father, Sisters and Brothers.

Mr. and Mrs. C. H. Bodrose

In loving memory of Edith, who died on May 19th, 1926.

It is not the tears at the time that are shed. That tell of the heart that is torn. But the passionate tears in after years.

And remembrance silently borne.

—Inserted by her husband, Joseph Harris.

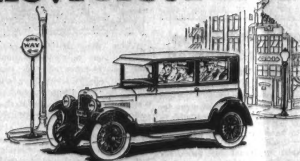

## Quality that Cannot be Duplicated at Chevrolet Price

POWER that laughs at high hills and rough roads! Smoothness that thrills you with delight! Speed and acceleration that start you every demand! Long, brilliant settings that cushion every shock! ### WHEAT POOL NOTES

Alberta Wheat Pool local elevators  
have handled a total of over five and  
a quarter million bushels of wheat  
from this crop.

The Pool has forty-two local ele-  
vators in operation at the present  
time. One hundred additional ele-  
vators will be built or acquired dur-  
ing the spring and summer.

The average handling of the Pool  
elevators to date is 124,750 bushels  
per elevator. Some of the elevators  
were not opened until late in the fall  
of 1925. On the whole the record of  
the Pool group of "houses" has been  
satisfactory.

Strome Pool elevator heads the  
list with total handling of 264,976  
bushels. C. K. Kreuger, its manager  
of this elevator, Poncha Pool elevator  
C. C. Shelton, manager, handled  
218,493 bushels, ranking second in the  
list. Coldwell handled 216,000 bushels.  
N. Nelson being manager of that ele-  
vator, which ranked third. Killian  
is fourth with 204,361 bushels. G. A.  
Murray, manager, Husar, with 203,  
356 bushels handled, is fifth. R. C.  
Armstrong being manager.

Other Pool elevators with good  
handlings are: High River 187,327  
bushels, Woodhouse 176,035, Days-  
land 173,493, Dalmead 166,363, Englin  
164,486, and Castor 160,663.

### NELSON'S FARM

A. R. Maurer has sold his farm  
to Leo Barnes, of Husar. The  
farm, 640 acres in size, is located  
about four miles southeast of Hus-  
ar. The new owner is well known  
around Husar, having lived in the  
vicinity for the past ten years.

Mr. Maurer will now devote all  
his time to his blacksmithing busi-  
ness in Bassano.

### PUBLIC HOLIDAY NEXT

TUESDAY, THE 24th OF MAY

Next Tuesday, the 24th of May, is  
Victoria Day. Stores, banks, and  
other business houses will be closed  
all day.

Many Bassano people are planning  
on going to the Husar Stampede on  
that day.

### GOLF NOTES

All the golfers who went to Brooks  
last Sunday had a very nice time on the  
Brooks course.

The Brooks club will play a return  
match next Sunday, May 23, in Bas-  
sano.

The ditch for the town irrigation  
system cuts across the course on  
several fairways, and makes a sporty  
hazard. It runs directly in front of  
the brook and the player next  
meets it just on the far side of the  
third green. It crosses No. 4 fair-  
way, making it necessary to keep to  
the left. On No. 5 fairway it crosses  
the hill below the tee, and offers but  
little cause for trouble unless the  
player dares his drive. On No. 8  
fairway it passes around the hill and  
runs northwesterly to cross No. 9  
fairway where it makes a difficult  
hazard about 200 yards from the  
tee and 30 or 40 from the green. No.  
9 tee may be moved back some dis-  
tance in order to make the hole  
longer and the hazard less hazardous.

## Rosemary News

ROSEMARY, May 19—The rain  
storm Tuesday stopped all seeding  
operations for a while.  
Johnny Jones was a week-end visi-  
tor at the home of Mr. and Mrs.  
Wilson.

Mrs. Jones went to Magrath last  
week for a short visit, and returned  
home Tuesday morning.

Mr. Wilson was a Bassano visitor  
Saturday last.

J. T. Pessey was a Bassano visitor  
Tuesday.

A school meeting was held Monday  
evening last, and was fairly well at-  
tended. Mr. Boyce, inspector, at-  
tended the meeting.

Mrs. Stuckey returned home from  
Picher Creek where she was visiting  
for a few days.

Louis Conn was a Bassano visitor  
Monday morning.

Pete Underwood, the manage in-  
spector, was in the community for  
a few days.

W. E. Sambrook was a Rosemary  
visitor Sunday afternoon.

Mrs. W. D. Elliott was a Calgary  
visitor for a few days last week.

Mrs. Edwards returned home from  
her visit with her folks.

In reply to a complaint from the  
Scottish Baking Society that the Cana-  
dian Wheat Pools are unduly hold-  
ing up the price of wheat in the face  
of a world's surplus, Pool officials  
contend the most to the grover to  
produce wheat should have some  
consideration. Also that wheat var-  
ied 10 cents a bushel on the Winni-  
peg option market. In the first few  
months of 1925 without the whole-  
sale price of bread in Winnipeg be-  
ing affected whatsoever.
